

Resolution #1516

A Resolution to Continue the U.S. Militarization of Space

- 1 Whereas: Weapons in space are needed to protect the United States' Global
2 Positioning System and the high speed communications of
3 network-centric warfare from anti-satellite weapons, and
5 Whereas: Maintaining U.S. dominance in space is of the utmost importance
6 to give the military a more effective anti-missile defense system,
7 and
8 Whereas: Further militarization of space will lead to space based earth strike
9 weapons giving the U.S. the ultimate high ground.
10 Therefore: Be it resolved by this Student Congress here assembled that:
11 The U.S. continue taking steps to maintain military dominance in
12 space and continue to vote against UN resolutions that are against
13 putting weapons in space.

Respectfully Submitted,

Senator Von Botteicher
